Explanatory Note on Recommendation

Chapel Hill Denham Research uses a 3-grade recommendation system for stocks under its coverage: **BUY**, **HOLD** and **SELL**. These recommendations are based on the current share price of the stock relative to the Analyst target price derived using either intrinsic or relative valuation techniques or a combination of both as the case may be, having considered the sector, company and key valuation drivers.

Recommendation Criteria:

BUY: The Analyst considers this stock to be undervalued and with sound fundamentals where the upside potential is in excess of or equal to 20% between the current price and the Analyst target price.

HOLD: The Analyst considers this stock to be fully valued where the upside potential is between 0% and 20% or the downside potential is less than 10% between the current price and the Analyst target price.

SELL: The Analyst considers this stock to be overvalued where the downside potential is in excess of 10% between the current price and the Analyst target price.

RESTRICTED: Communication of recommendation is deemed as restricted when Chapel Hill Denham is engaged in an investment banking transaction or other related circumstances with the Company.
